

Web-based Timesheet Management Solution

Intertec TimePro Hosted is a fully-hosted web timesheet solution (accessed via our website – no installation required), which is offered on a monthly or annual subscription basis.

TIMEPRO HOSTED IS IDEAL FOR:

- Businesses preferring to pay for their timesheet solution on a monthly or annual subscription basis, rather than purchasing a product outright.
- Organisations that have a need to track time and manage costs for specific projects, **without engaging internal IT resources** to set up new systems.
- Businesses wanting to **implement a solution quickly and simply**.
- **Any business** looking for a professional and easy-to-use timesheet management system available as a fully hosted solution.

TESTIMONIAL:

"DeMorgan are an information security company, providing both consultancy and managed services to a varied client base. The differences in these two engagement models requires a time capture system that is both versatile and comprehensive, but still provides extensive reporting functionality.

We evaluated TimePro against our own criteria and were pleased with the result. Consequently, we now use TimePro for internal management reporting and for tracking all of our projects, whether for clients or in-house. With Timepro, we can capture and report data in a structure and format that contributes to our own business process improvement initiatives."

Alan Bullows - Managing Director, DeMorgan Information Security Systems

HOSTING PLANS:

Intertec TimePro Hosted Plan:

- Low-cost monthly or annual subscription (from AUD\$5 per user per month).
- Fully hosted – no need to install anything.
- Includes 3 years data retention and 6 months audit history.
- Product support via telephone, email and website.
- The login anywhere feature lets you and your Users login from your own website or Intranet.
- Bonus interface for mobile access via your PDA or iPhone.

Custom Hosting Plan:

- Get a fully-hosted TimePro solution with extended functionality.
- We create and manage an exclusive instance of the TimePro application for you.
- We customise and tailor the application for your business.
- User price breaks are the same as for TimePro Hosted Plan.
- If you think a custom solution will best suit your business, contact us to discuss your timesheet requirements in more detail.

**Timesheets, anywhere,
anytime...**
